

COURSE GUIDE

<u>Subject name</u>	Insurance in Logistics
<u>Course of study</u>	Logistics
<u>The form of study</u>	Full-time
<u>Level of qualification</u>	Second
<u>Year</u>	I
<u>Semester</u>	2
<u>The implementing entity</u>	Department of Logistics and International Management
<u>The person responsible for preparing</u>	dr inż. Marta Kadlubek
<u>Profile</u>	General academic
<u>ECTS points</u>	4

TYPE OF TEACHING – NUMBER OF HOURS PER SEMESTER

LECTURE	CLASS	LABORATORY	PROJECT	SEMINAR
15	15			

COURSE AIMS

- C1.** Presentation of basic knowledge about insurance principles and risk management techniques.
C2. Introducing the most important international law procedures and norms of insurance issues in logistics.

ENTRY REQUIREMENTS FOR KNOWLEDGE, SKILLS AND OTHER COMPETENCES

- Students have basic knowledge about logistics.
 Students have basic knowledge about law rules.
 Students are able to determine management techniques.

LEARNING OUTCOMES

- EU 1- Students identify the adequate insurance elements and principles.
 EU 2- Students describe the most important risk management techniques.
 EU 3- Students identify the most important international law procedures of insurance.
 EU 4- Students describe the norms of insurance issues in logistics.

COURSE CONTENT

Types of teaching – LECTURES		Number of hours
L 1	Introduction to the subject of insurance in logistics.	1
L 2	Definitions of insurance and risk.	1
L 3	Elements of insurance.	1
L 4	Insurance contract – legal aspects.	1
L 5	Commercial insurance.	1
L 6	Claims procedure.	1
L 7	Insurance legislation in European Union.	1
L 8	Insurance as a risk transfer mechanism.	1
L 9	Risk management techniques.	1
L 10	Importance of international logistics in the context of risk and insurance.	1
L 11	Risks in foreign trade in logistics area.	1
L 12	Rules of INCOTERMS 2010.	1
L 13	Marine and aviation insurance.	1
L 14	Insurance and liability in transportation.	1
L 15	Insurance claims and procedures in logistics.	1
Type of teaching – CLASSES		Number of

		hours
C 1	Introduction to subject. Meetings' order, ways of obtaining marks.	1
C 2	Introduction to insurance and risk.	1
C 3	General principles of insurance.	1
C 4	Structure of insurance contract.	1
C 5	Clue of commercial insurance.	1
C 6	Cargo insurance claims.	1
C 7	The evolution of insurance regulation in the European Union.	1
C 8	Logistics and insurance.	1
C 9	Insurance as a tool for managing risk.	1
C 10	Importance of international logistics in the context of risk and insurance. Insurance of logistics processes on example.	1
C 11	Risk and insurance management in road transportation.	1
C 12	Scope of the most important International Commercial Terms.	1
C13	Marine and aviation insurance – example of adjustment of general average. Cases of marine insurance.	1
C14	Freight forwarders and logistics liability insurance policy on example. Cargo transport insurance.	1
C15	Insurance requirements of logistics and warehousing industry on example. The automobile and its legal environment. Summary test.	1

TEACHING TOOLS

Books, scripts.
Law documents.
Multimedia tools.
E-learning platform.

WAYS OF ASSESSMENT (F – FORMATIVE, P – SUMMATIVE)

F1 E-learning activities.
P1 Summary test.

STUDENT WORKLOAD

Form of activity	Average number of hours for realization of the activity
	[h]/ECTS POINTS
Contact hours with the teacher	3
Contact hours with the teacher - E-learning platform	42
Preparation for e-learning activities	20
Preparation for tests	20
Literature studying and reading	10
Consultations	5
TOTAL NUMBER OF HOURS / ECTS POINTS FOR THE COURSE	100 / 4
